Click [Delete] button if necessary
(*Do not use [Publish Now] and [Edit] button)

The screenshot shows a video management interface. On the left, there is a video thumbnail with a 'Private' icon and a duration of 05:18. The video title is '155CC 2021 Forum F1: Striking the balance between energy efficiency & flexibility: General-Purpose vs Special-Purpose ML Processors'. Below the title, the organizers are listed: Luca Benini, ETH Zürich, Univ. Bologna, Sukhwan Lee, Samsung S.I.S.I., Yong Pan, Univ. Tsinghua Univ., Tanay Karnik, Intel, and Hsi-chia Chang, National Chiao Tung Univ. To the right of the video, there is a 'Sample Video' section with the following details: Group (未登録), Tags, Release Date (2021/05/12 ~), and Number of Comments (0). At the bottom right of the video section, there are three buttons: 'Publish Now' (checked), 'Set to Private', and 'Delete'. Above the 'Delete' button is an 'Edit' button.

If more than 2 video presentation files are uploaded for the same Program No., only the latest file is published for on-demand presentation.

IMPORTANT

<Deadline>

May 21, 2021 (JST)

Prior to upload your complete MP4 files and PDF slides, **original presentation slides need to be confirmed by your session chairs**.

<System Maintenance>

10:00-12:00 on May 17 (JST)

During the system maintenance, any session chairs / speakers cannot access the virtual platform.
